Our area of expertise

OVER 20 YEARS EXPERIENCE AND, COUNTING.

Specializing in the manufacturing of dasher boards, arena equipment and their countless accessories, Agorasport has been a leader in the sports industry since the early 2000's.

We strive in our field by offering turn-key services and high-quality products backed by our unbeatable customer service.

Working hand in hand with the public, architects, and general contractors,we offer our services for everything, from backyard projects, retrofit of older establishments to design and budget analysis for custom design sports venues and facilities everywhere.

Need help with budget analysis, designing, installation, commissioning or even replacement parts? Agorasport, the full package conveniently in one place.

For any questions or a free quote, our experts are eager to help.

Dasher Boards

PROFESSIONAL ALUMINUM MULTI-SPORT DASHER BOARD SYSTEM

AGORA PRO 500 SERIES

Modular rink system best for recreational use.
75 mm aluminum structure covered with 12 mm 100% virgin HDPE plastic boards.
UV treatment added during manufacturing
Anchor system adapted to the nature of the installation (asphalt, concrete or compacted soil).
This rink system can be equiped with a black nylon safety net or galvanized steel fence.
Several sizes and options available on request.

PROFESSIONAL ALUMINUM DASHER BOARD SYSTEMS

AGORA PRO 1000 SERIES

Professional calibre modular hockey rink system.
150 mm aluminum structure covered with 12 mm 100% virgin HDPE plastic dasher boards.
UV formula added to the plastic during manufacturing.
Can be made with or without bay window support systems
This ice rink system can be completed with a bay window (glass or plexiglass) or a galvanized steel fence finishing

Several sizes and options available on request.

Dasher Boards

Several sizes and options available on request.

PROFESSIONAL GALVANIZED STEEL DASHER BOARD SYSTEMS

AGORA PRO 1200 SERIES

Professional calibre modular hockey rink system.
150 mm aluminum structure covered with 12 mm 100% virgin HDPE plastic dasher boards.
UV treatment added during manufacturing.
Can be made with or without bay window support systems
This ice rink system can be completed with a bay window (glass or plexiglass) or a galvanized steel fence finishing

Glass Shields & Accessories

SHIELDING

Clear safety glass dipped flat.
Standard compliant to CAN2-12.1-M79 Type 2.

Standard sizes :

48" x 48" x 1/2"	**#6010-0001**
48" x 60" x 1/2"	**#6010-0002**
48" x 72" x 1/2"	**#6010-0003**
48' x 96" x 1/2"	**#6010-0004**
48" x 48" x 5/8"	**#6010-0005**
48" x 60" x 5/8"	**#6010-0006**
48" x 72" x 5/8"	**#6010-0007**
48" x 96" x 5/8"	**#6010-0008**
all other dimensions of glass 1/2"	**#6010-0027**
all other dimensions of glass 5/8"	**#6010-0028**

POLYCARBONATE

Sheets of clear Polycarbonate

Standard sizes :

48" x 96" x 1/2"	**#5540-0001**
48" x 96" x 1/4"	**#5540-0002**
60" x 96" x 1/4"	**#5540-0003**
48" x 96" x 1/2"	**#5540-0004**
48" x 96" x 1/8"	**#5540-0005**
60" x 96" x 1/8"	**#5540-0006**
48" x 96" x 3/16"	**#5540-0007**
48" x 96" x 3/32"	**#5540-0008**

CLEAR ACRYLIC SHIELD

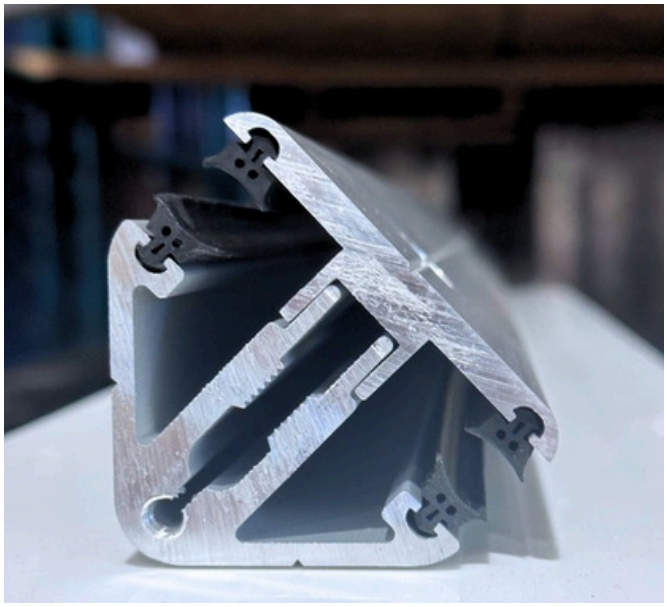

Clear acrylic panel can be used as a temporary protective screen when tempered glass is broken.

Standard sizes :

48" x 96" x 1/2"	**#5550-0001**
60" x 96" x 1/2"	**#5550-0002**
72" x 96" x 1/2"	**#5550-0003**
48" x 96" x 1/4"	**#5550-0004**
48" x 96" x 1/8"	**#5550-0005**
48" x 96" x 3/4"	**#5550-0006**
48" x 96" x 3/8"	**#5550-0007**

Shielding & Accessories

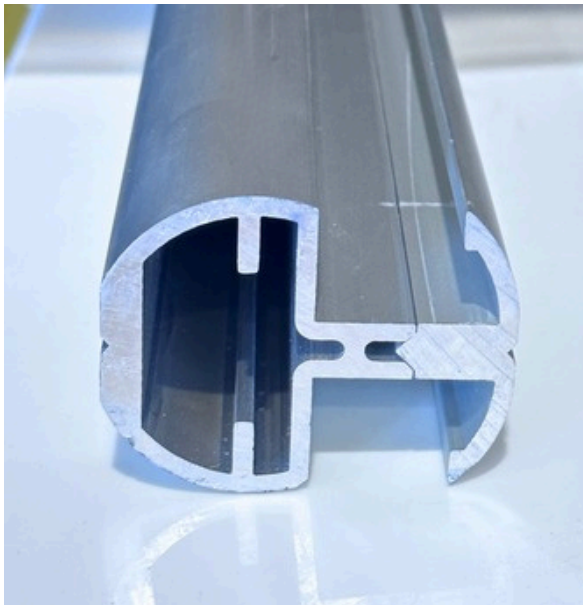

SHIELD SUPPORT

Extruded aluminum window supports with anodized finish. Equipped with a pressure plate for easy mounting and disassembly of tempered glass. In this shield, the termination is included.

Standard dimension :

60/40	Window support (48" glass)	**#6510-0091 + 6510-0099**
72/52	Window support (60" glass)	**#6510-0092 + 6510-0100**
84/64	Window support (72" glass)	**#6510-0093 + 6510-0101**
108/88	Window support (96" glass)	**#6510-0094 + 6510-0102**

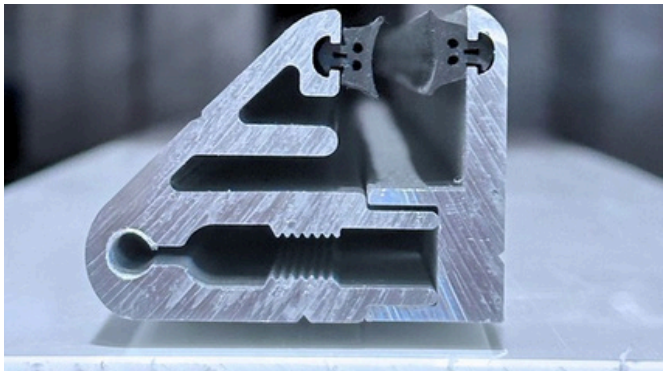

SHIELD SUPPORT

Extruded aluminum window supports with anodized finish. Equipped with a pressure plate for easy mounting and disassembly of tempered glass.

Standard dimension :

60/40 Window support (48" glass)	**#6510-0026**
72/52 Window support (60" glass)	**#6510-0027**
84/64 Window support (72" glass)	**#6510-0028**
108/88 Window support (96" glass)	**#6510-0023**

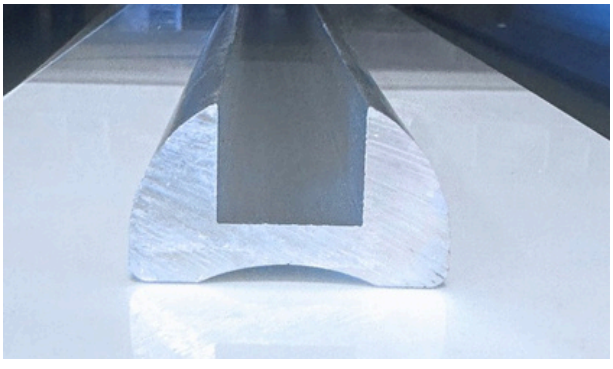

TERMINATION SHIELD SUPPORT

Half support posts in extruded aluminium with anodized finish. Essentially installed on doors to allow the glass to rotate to 90°.

Standard dimension :

Half support 60" (48" glass)	**#6510-0058 + 6510-0074**
Half support 72" (60" glass)	**#6510-0057 + 6510-0073**
Half support 84" (72" glass)	**#6510-0056 + 6510-0072**
Half support 108" (96" glass)	**#6510-0055 + 6510-0071**

TERMINATION SHIELD SUPPORT

Half support posts in extruded aluminium with anodized finish. Essentially installed on doors to allow the glass to rotate to 90°.

Standard dimension :

Half support 60" (48" glass)	**#6510-0006**
Half support 72" (60" glass)	**#6510-0004**
Half support 84" (72" glass)	**#6510-0003**
Half support 108" (96" glass)	**#6510-0001**

Shielding & Accessories

CLEAR SUPPORTLESS GLASS CLIP

Clear acrylic clips used to connect glass shields when a supportless system is desired.

Clear acrylic clip with hardware **#6520-0018**

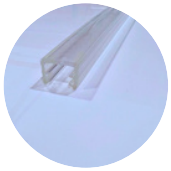

SCREWS FOR SHIELD SUPPORT

Screw for shielding support with rounded head.
Ensures proper compression of the plate on the pole.

1/4" X 1 1/2" PH Robertson zinc screw **#9510-0054**

GASKET FOR SHIELD SUPPORT

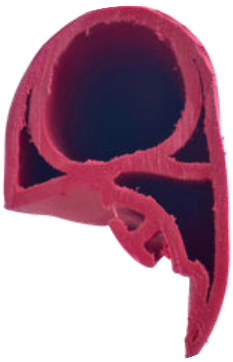

Clear gasket insert for safe and compliant installation of tempered glass in the shielding support.

Gasket for glass width of 1/2" or 5/8"

clear gasket 1/2" X 39" (48" glass)	**#6520-0002**
clear gasket 1/2" X 51" (60" glass)	**#6520-0003**
clear gasket 1/2" X 63" (72" glass)	**#6520-0004**
clear gasket 1/2" X 87" (96" glass)	**#6520-0005**
clear gasket 5/8" X 39 (48" glass)	**#6520-0007**
clear gasket 5/8" X 51" (60" glass)	**#6520-0008**
clear gasket 5/8" X 63" (72" glass)	**#6520-0009**
clear gasket 5/8" X 87" (96" glass)	**#6520-0010**

PROTECTIVE CUSHION FOR SHIELDS

Made of red elastomeric plastic.
Very useful to protect players when there is impact on the glass.

24"	**#6520-0011**
30"	**#6520-0012**
36"	**#6520-0013**

Shielding & Accessories

ELECTRIC SUCTION CUP

Electric suction cup ideal for safe handling of large tempered glasses.
offers 180° rotation and 90° tilt for easy installation of tempered sheets of glass. However it is mandatory to have a forklift with a good capacity to operate.

#4540-0008

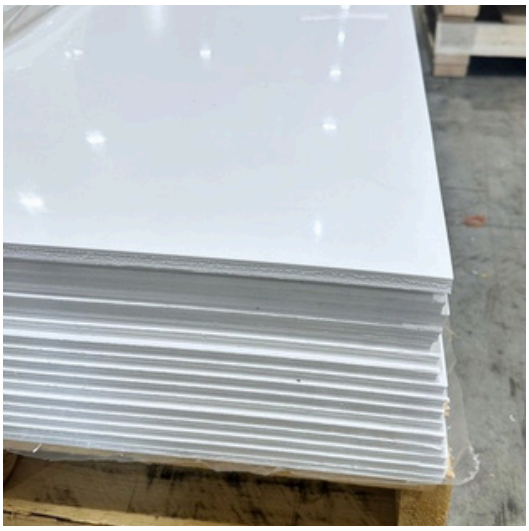

MANUAL SUCTION CUP

Suction suction cup with pump-activated vacuum mechanism and quick release button.
Used for safe handling of tempered glass.

#4540-0007

DASHER BOARD REPLACEMENT & ACCESSORIES

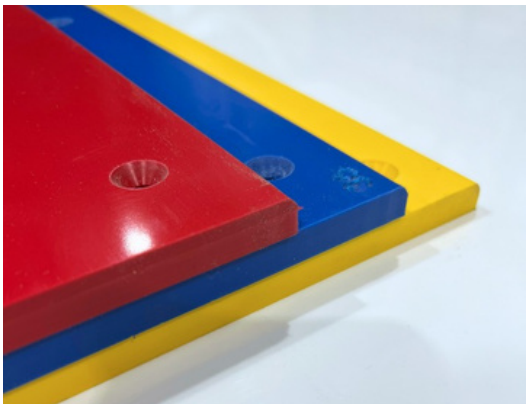

DASHER BOARD REPLACEMENT - WHITE HDPE

Made of virgin polyethylene with superior quality and UV treated.

Standard product number:

White dasher board replacement 42'' x 96'' x 1/2''	**#5510-0004**
White dasher board replacement 48'' x 96'' x 1/2''	**#5510-0005**
White dasher board replacement 48'' x 96'' x 1/4''	**#5510-0011**
White dasher board replacement 42'' x 96'' x 3/8'	**#5510-0019**

COLOURED HDPE TOP RAILS

Made of virgin polyethylene with superior quality control and UV treated.

Standard product number:

Red straight top 6 3/4'' X 96'' X 1/2''	**#5580-0009**
Dark blue straight top 6 3/4'' X 96'' X 1/2''	**#5580-0013**
Red curved top 7'' X 96'' X 1/2'' R-28'	**#5580-0011**
Dark blue curved top 7'' X 96'' X 1/2'' R-28'	**#5580-0015**

COLOURED HDPE KICK PLATE

Made of virgin polyethylene with superior quality control and UV treated.

Standard product number:

Yellow kick plate 8'' X 96'' X 1/2''	**#5560-0004**
Light blue kick plate 8'' X 96'' X 1/2''	**#5560-0029**
Yellow kick plate 10'' X 96'' X 1/2''	**#5560-0008**
Yellow kick plate 12'' X 96'' X 1/2''	**#5560-0012**
Yellow kick plate 8'' X 96'' X 1/4''	**#5560-0002**
Yellow kick plate 10'' X 96'' X 1/4''	**#5560-0006**
Yellow kick plate 12'' X 96'' X 1/4''	**#5560-0010**

DASHER BOARD REPLACEMENT & ACCESSORIES

COLOURED HDPE ZONE LINES

Made of virgin polyethylene with superior quality control and UV treated.
12" wide.

standard product number :

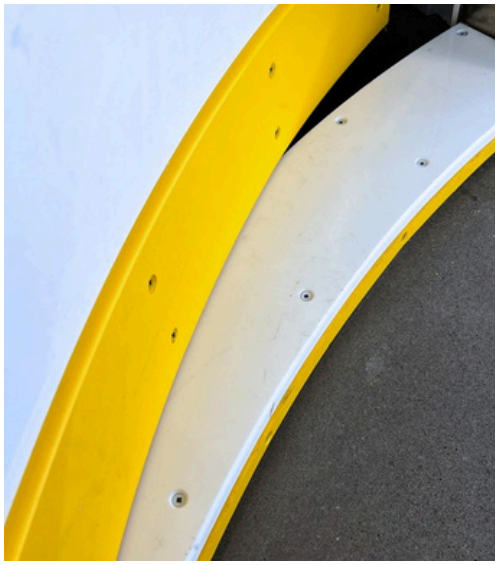

Red zone line12"x 48" x 1/2"	**#5560-0024**
Blue zone line 12"x 48" x 1/2"	**#5560-0025**
Red zone line 12"x 48" x 1/4"	**#5560-0027**
Blue zone line 12"x 48" x 1/4"	**#5560-0028**
Red kick plate zone 12"x 8" x 1/2"	**#5560-0019**
Blue kick plate zone 12"x 8" x 1/2"	**#5560-0021**

COLOURED HDPE GOAL LINES

Made of virgin polyethylene with superior quality control and UV treated.
12" wide.

standard product number :

Red goal line 2"x 48"x 1/2"	**#5560-0023**
Red goal line 2"x 48"x 1/4"	**#5560-0026**
Red kick plate for goal line 2"x 8"x 1/2"	**#5560-0017**

WHITE HDPE THRESHOLDS

prevent the blades from contacting the screws with the HDPE thresholds.
3/4" thick.

standard product number:

Straight simple threshold 6 1/2" X 24" X 3/4"	**#5570-0001**
Straight simple threshold 6 1/2" X 30" X 3/4"	**#5570-0002**
Straight simple threshold 6 1/2" X 36" X 3/4"	**#5570-0003**
Straight double door threshold 6 1/2" X 120" X 3/4"	**#5570-0009**
Straight double door threshold 6 1/2" X 144" X 3/4"	**#5570-0010**
Curved double door threshold 6 1/2" X 120" X 3/4" R28	**#5570-0019**
Curved double door threshold 6 1/2" X 144" X 3/4" R28	**#5570-0020**

DASHER BOARD REPLACEMENT & ACCESSORIES

CLEAR ADVERTISING PROTECTING SHIELD

Polycarbonate sheets to protect advertising.
This material is more resistant to scratches and impacts than Acrylic, no discoloration over time.

standard product number:

3/32" X 48" X 96"	**#5540-0008**
3/32" X 33" X 96"	**#5540-0010**
1/8" X 48" X 96"	**#5540-0005**
3/16" X 48" X 96"	**#5540-0007**
1/4" X 48" X 96"	**#5540-0002**
Polycarbonate screw 8 x 9/16'' PH Phillips zinc	**#9510-0053**

GATE HARDWARE

SLIDING CLOSURE BAR AND LOCKS

Locking bars are generally used on double access doors and ice resurfacer doors. They are mostly located in the corners of the rink and are very solicited by the lateral thrusts from the ice resurfacer or during severe checking. To avoid warping of these doors, two locking bars are necessary and must be mounted on collars that support them and allow them to slide sideways. They are made of 2'' solid tubular steel with a zinc finish and lever to facilitate engagement with the seat collars.

locking bar 47"	**#9010-0028**
locking bar 30"	**#9010-0029**
seat collar C 47" et 30" straight gate	**#9010-0032**
seat collar D 47" et 30" straight gate	**#9010-0033**
seat collar E 30" 28 radius	**#9010-0034**
seat collar F 30" 28 radius	**#9010-0035**
seat collar A 47" 28 radius	**#9010-0036**
seat collar B 47" 28 radius	**#9010-0037**

ULTRA ROBUST MACHINE GATE

Commonly used on double access doors and ice resurfacing doors.
Made of 2'' solid tubular steel with zinc finish.
Equipped with a lever to facilitate engagement in seat collars.

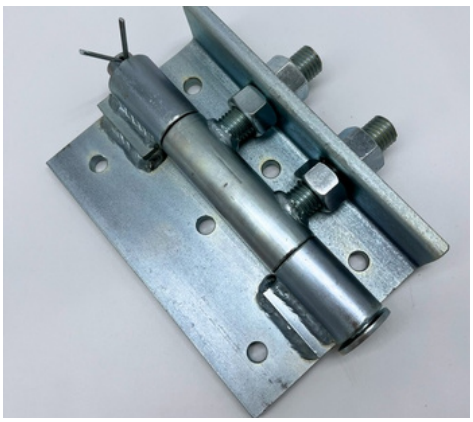

various dimensions available upon request

SPRING LOADED CASTER

Used on each door whose width exceeds 48''.
Manufactured with an adjustable swivel wheel with a reinforced suspension and equipped with a phenolic tread to maintain constant pressure.
Equipped with pivot and axle grease fittings to extend service life.

#9010-0041

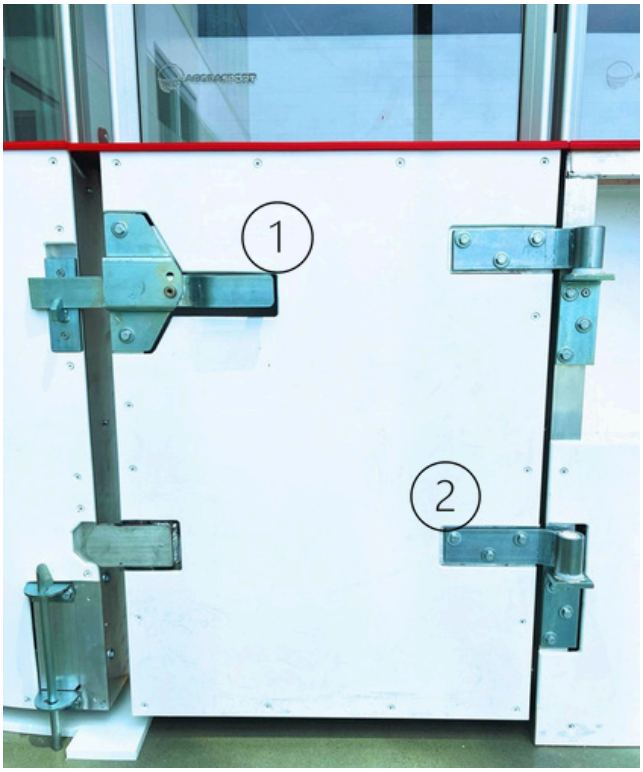

MACHINE GATE HINGE

Made of steel with a zinc finish.
Generally used for double access doors to the ice rink and double doors to the ice resurfacer.
Allows an opening of more than 120°, as well as adjustment of the levels thanks to its lifting bolts.

#9010-0009

GATE HARDWARE

1 GATE LATCH

Made of steel with a zinc finish.
Generally used for access doors to the rink and bench doors for players.
Their design allows the door to be opened 180°.

Right	**#9010-0001**
Left	**#9010-0004**

2 GATE HINGE

This heavy-duty zinc finish steel latch is typically used on access doors and players gates that open easily with a gloved hand in a downward movement to allow an easier and faster opening.

#9010-0022

PUSH BUTTON

When the doors are topped with glass, the latch is then adapted to receive the lever opening mechanism built into the door. The push button is a latch release mechanism that allows the player to open the glass door with a gloved hand while on the ice. The button should be flush on top sill to prevent accidental opening.

#9010-0038

ELECTRIC GUILLOTINE DOOR

Vertical electric door
Activated by remote control, this door system allows access to resurfacers or any other type of equipment inside the rink.
This type of system is generally used when the distance between the rink and the wall is restricted and also to secure access to the ice when the resurfacer is in operation.

#8010-0001

Arena Accessories

SPECTATOR PROTECTIVE NETTING

2 mm in diameter with 1 3/4'' knit.
Usually installed at the ends of the rink to protect everything around it and installed on a SWR suspension system and tensioners to ensure proper net tension.

Standard net	**#4010-0004**
Flame resistant	**#4010-0009**

ROLL OF REPAIR TWINE

#5020-0014

RINK DIVIDER - FOAM

Covered with vinyl, ice separators are a safe and economical solution for dividing a rink.
Equipped with extra-heavy-duty Velcro fasteners, the rink dividers are simple to install and easy to store.

#4570-0003

LOW EMISSIVITY CEILING *AGO-ENERGY*

The heat emitted by the ceiling is responsible for 28% of all thermal loads in an arena. The AGO-ENERGY ceiling, with a low emissivity index (3%), reduces energy consumption and operating costs. The installation of the AGO-ENERGY suspended ceiling significantly reduces or completely eliminates the radiant load, increases the brightness and improves the overall appearance of the premises.

#7510-0001

Arena Accessories

ANTI-VANDALISM DESK

This console is installed in the marker enclosure to prevent vandalism.
The console structure can be padlocked.
This console varies in length from 48’ to 96’ depending on the space available in the marker enclosure.

#4540-0052

CLOCK

Use the TI-2031 as a cloakroom clock, segment timer or time of day display.

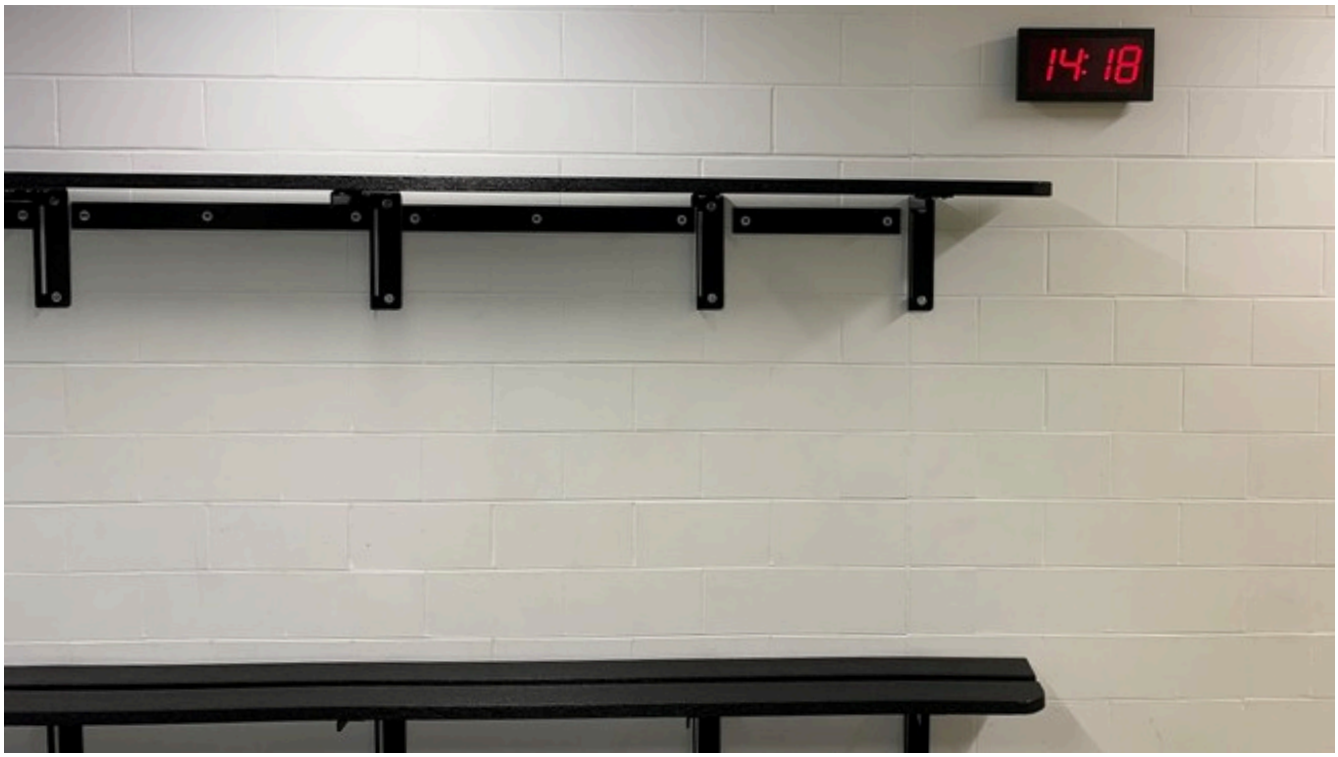

#7000-0013

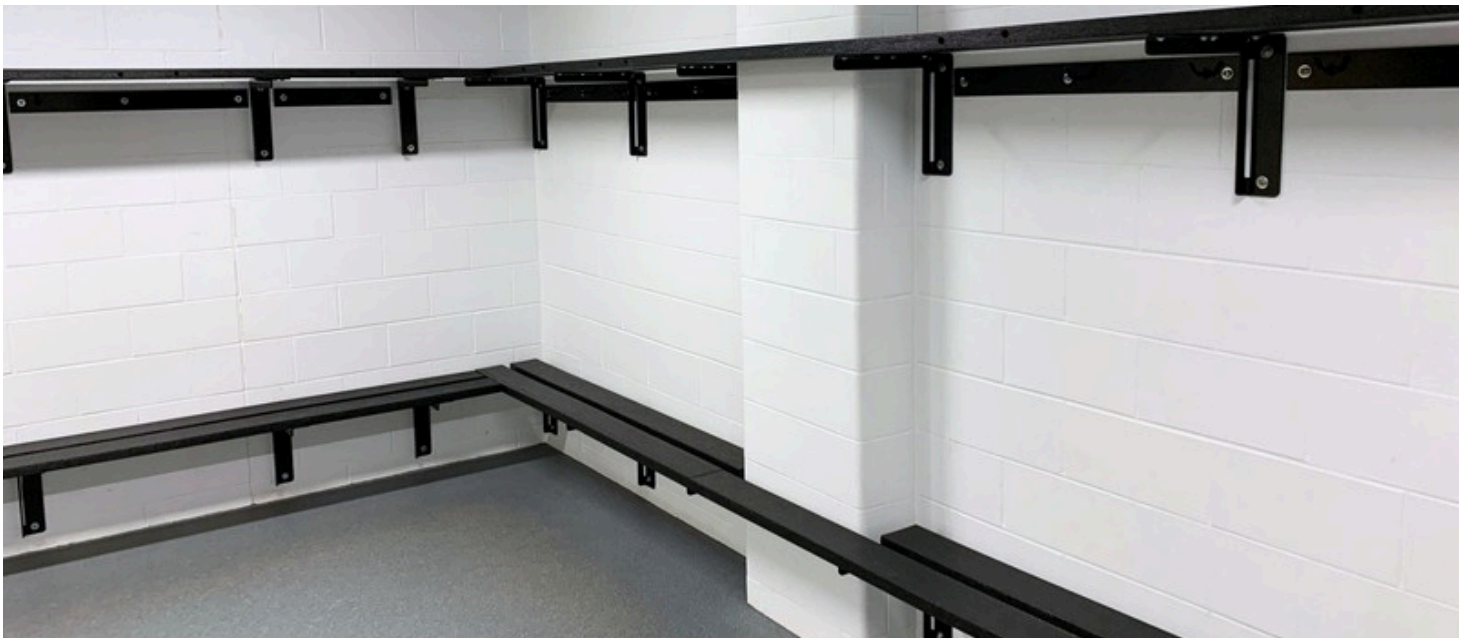

SITUATION GAME BOARD

Table with a graphic representation of a hockey rink.
Must be used with erasable markers.

Sticker	**#4010-0004**
Rigid 20" X 28"	**#4540-0001**
Rigid 24" X 32"	**#4540-0002**
Rigid 32" X 44"	**#4540-0003**

Equipment

BENCHES AND SHELVE SYSTEMS

Support for steel benches and shelves with zinc finish.
Can be fixed directly to the wall without support against the floor.
Facilitates maintenance of the locker room

#2570-0027

Various customizable options available upon request

WALL MOUNTED LOCKER ROOM HOOKS

Wall mounted clothing hooks ideal for locker rooms and dressing rooms.

32" 1/2	**#2570-0046**
19" 1/4	**#2570-0005**
8" 1/2	**#2570-0006**

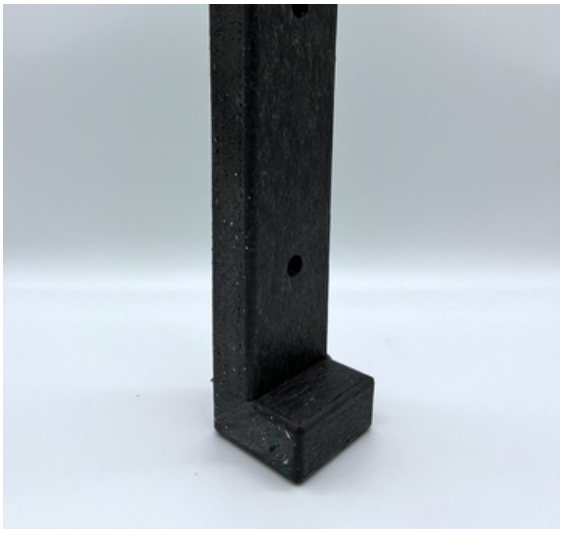

MOUNTED HOCKEY STICK SUPPORT

This wall mounted hockey stick support is designed to safely store sticks in locker rooms or behind players' benches.

48"	**#2570-0006**

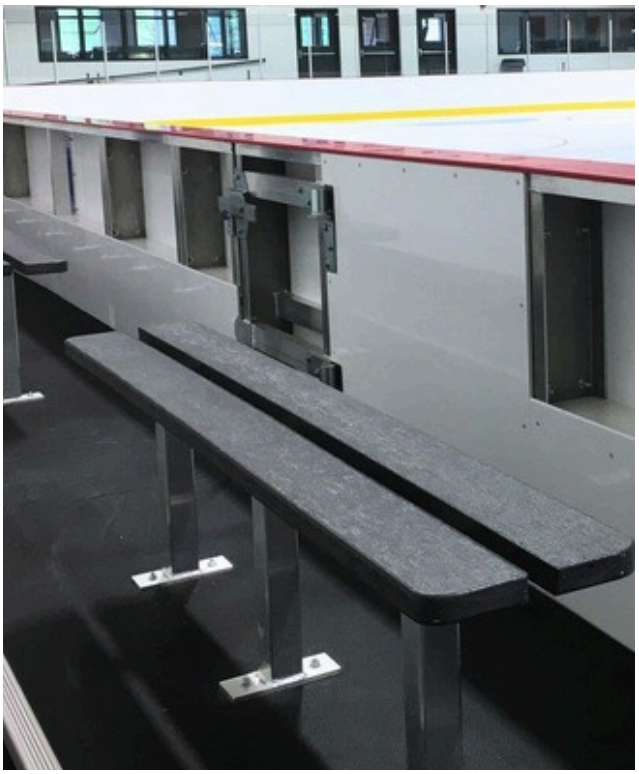

Player benches

BLADE PROTECTOR (PLAYER BENCHES)

Installed on player bench support to protect blades from ice skates.

#2570-0041

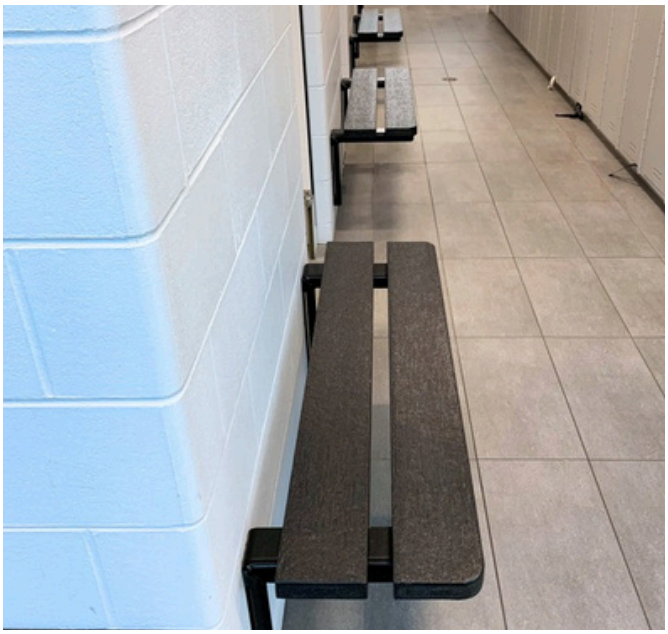

PLAYER BENCHES

This bench support model is generally used for players' benches, penalties and marker benches.
Durable and maintenance-free.

#2570-0017

Various customizable options available upon request

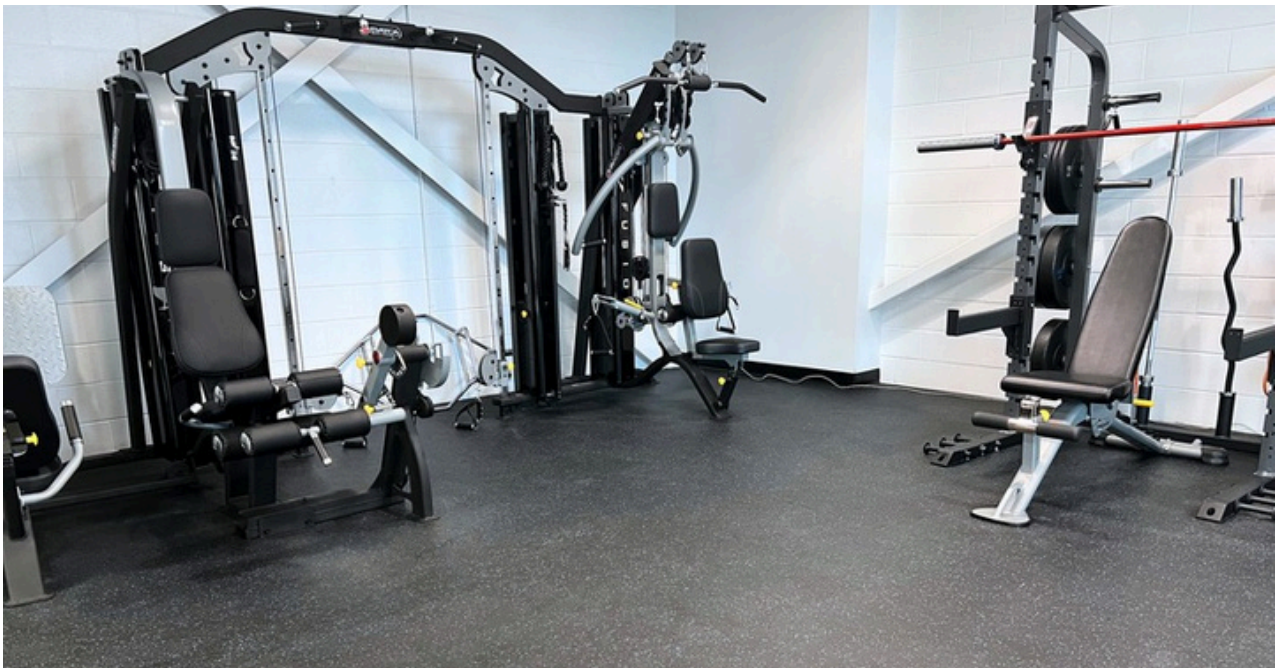

RECYCLED PLASTIC BENCHES

Recycled plastic fiber board ideal for replacing painted and/or varnished wooden benches.
2'' X 6'' x 120''.

#2570-0017

Various customizable options available upon request

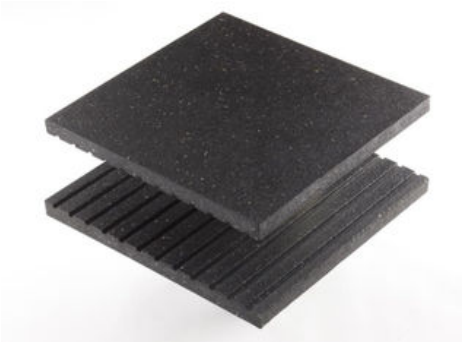

Black floor mats

VULCANIZED RUBBER FLOORING

Made from 100% recycled rubber components by vulcanization process.
The mats are 48" x 72" and come in different finishes and thicknesses.

Several sizes and finishes available upon request.

RUBBER MAT GLUE

The E6100 Vulcanized Carpet Adhesive is a non-flammable glue designed to meet high performance requirements.
This glue is designed to join carpet tiles together, not for the surface.

Divider Curtains

C-ROLL

Easy installation and quick deployment of (28 ft. per minute).
Its unique design allows for greater flexibility, allowing for different materials and colours to be used between the upper and lower sections.
The curtain can be installed on an existing W-Draw rail.
Amounts to less than 10'' from the ceiling structure.

Several colors, dimensions and options available on request.

E-FOLD

This system is a traditional model and it is the most common dividing curtains.
It is lifted on aircraft cables every 10' c/c through stainless steel grommets every 18" c/c vertically. The cables are wound on 4" diameter grooved drums directly on the lifting lines with quick adjustment at the top of the cable.

Several colors, dimensions and options available on request.

C-ROLL ACOUSTIC

Designed to be the most efficient roll-up curtain with acoustic values up to 33 decibels.
The panels have a continuous link at mid-height with anodized aluminum extrusion.
The C-ROLL ACOUSTIC divider curtain wraps up to 24" from the ceiling structure.
Provided with valences and alcoves to ensure safety and acoustic benefits, this curtain must be installed with 32 oz full height vinyl panels that extend from wall to wall.

Several colors, dimensions and options available on request.

Divider Curtains

DW-FOLD

The DW-FOLD divider curtain system offers acoustic values up to 37 decibels due to the thickness of the vinyl used and the 2-layer manufacturing.
The design features include wall-to-wall adjustment with a centered lifting pipe that stays clear of the floor and lifting cables at every 10' c/c.
Valences and alcoves are necessary to ensure safety and to improve acoustic performance.

Several colors, dimensions and options available on request.

F-FOLD

No matter the shape and size of the roof, this curtain is designed to fit.
With endless options, the F-FOLD curtain systems are extremely versatile.
Very fast deployment (45-60 ft. per minute).

Several colors, dimensions and options available on request.

W-DRAW

This divider curtain system is the most economical in terms of installation and maintenance.
Can be provided in two or more sections depending on dimension.
Equipped with Velcro straps on both leading ends on 8' high for easy closure of sections.

Several colors, dimensions and options available on request.

ZERO CELSIUS

SERVICING OF ALL BRANDS OF ICE RESURFACERS

Specializing in mechanical maintenance and servicing of electric, propane and natural gas Ice resurfacers of all brands. Zero Celsius offers a complete service to its customers and quickly became the solution for the customers of arenas and parks of the territory.
